

We design the courses the market is about to demand.

A course intelligence and creation partner for professional learning providers operating in high-stakes, regulated domains. We help you decide what to build before the industry & the learners makes it obvious.

The problem we solve

Courses failing when the market has moved on.

What we offer

- ✓ Demand-led course content development
- ✓ Regulator-aligned learning frameworks
- ✓ Commercially viable course design

We remove guesswork and uncertainty from course creation.

Our purpose is simple:

We design the courses the market is about to demand.

Whom We Serve

- ✓ Edtech founders and leadership teams
- ✓ Course aggregators & distribution platforms
- ✓ Learning providers entering regulated domains

If your growth depends on building the right courses, we are built for you.

How we Work

We partner at the concept stage to remove guesswork from course creation.

Our Expertise

Trusted by professional learning platforms operating across regulated and professional domains.

Demand Intelligence

Identifying real market pull before trends peak

Course Architecture

Structured for clarity, scale, and multi-format adoption

Premium Positioning

Designed to justify value-led pricing and age well over time

Aggregator Readiness

Packaged for fast acceptance and distribution

Built by practitioners. Driven by foresight.

Michael Harris

Brings deep domain expertise in AML, financial crime, and compliance education, with a sharp focus on regulatory relevance and practical learning outcomes.

Avik Bal

Specialises in demand-led course strategy, market positioning, and designing learning products that scale commercially across edtech ecosystems.

We have partnered with:

- Professional learning providers building compliance and risk portfolios
- Course aggregators seeking differentiated, high-value content
- Learning platforms serving professionals and enterprises

Partner with us at the concept stage.

Before outlines. Before content creation. Before investment decisions are locked. Let's design courses the market is already preparing to buy.

Start with a Course Concept Conversation.
